Eighth International Conference on Artificial Intelligence and Soft Computing – AISC 2024 will be held during Nov 25-26, 2024, Kochi, India. AISC 2024, is to bring together innovative academics and industrial experts in the field of Computer Science, Information Technology, Computational Engineering, Communication and Network to a common forum.

The primary goal of the conference is to promote research and developmental activities in Computer Science, Network, Computational Engineering, and Communication. Another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working in India and abroad. The conference will be held every year to make it an ideal platform for people to share views and experiences in Artificial Intelligence, Soft Computing and related areas. The AISC conference is jointly organised by the IDES and the Association of Computer Electrical Electronics and Communication Engineers (ACEECom). All the accepted registered papers will be published by the **Grenze Scientific Society** and it will be made available in the **GRENZE International Journal of Engineering and Technology (GIJET)**, and will be indexed in **Scopus**.

AISC 2024, aims at bringing together the Professors, Researchers, and Students in all areas of Artificial Intelligence, Hybrid Intelligent Systems, Robotics, Image processing, Soft Computing and to provides an international forum for the dissemination of original research results, new ideas and practical development experiences which concentrate on both theory and practices.
